Home Ventilating Institute — Certified Ratings

The room rating — by square foot method has been applied in accordance with F.H.A. and H.V.I. specifications. Performance of the particular fan at appropriate static pressure points is determined by the aforementioned independent test facility.

RECOMMENDED AIR CHANGES PER HOUR

ROOM	15	8	6
Kitchen			
Bathroom			
Family, Laundry, or Recreation Room			

Static Pressure Points —

Duct Connected Fans	.10 inches W.G.
Direct Discharge	
Wall Fans	.03 inches W.G.

All ventilating fans which display the H.V.I. Label have been tested by the Texas Engineering Experiment Station at Texas A&M College, in accordance with the Standard Test Code, approved by H.V.I.

Built-In Stereo

Intercom - AM·FM Radio High Fidelity Music System

U.L. Listed

Now you can enjoy STEREO MUSIC throughout your entire home . . . not just in a single room. You can virtually custom-build your own NuTone Stereo System to suit your own taste . . . every inch of it built-in to standard (2 x 4) walls to save space and money!

Now . . . A Stereo Music System All Through the House

**AM-FM RADIO TUNER
FOR STEREO RADIO**

High Fidelity AM and FM Radio in a single chassis. Permits use of one Speaker System for an AM program, the other for an FM program, simultaneously. Also for Stereo Radio broadcasts. Solid Walnut frame. Gold anodized control and dial panels. Input plugs for auxiliary equipment 15 $\frac{3}{4}$ " wide, 11" high, 4" deep. Model 2402 \$199.90

NuTone Built-In Stereo System speakers and components cannot be used with the NuTone Intercom-Radio System.

"FOLD-AWAY" RECORD STORAGE CABINET

Matches the "Fold-Away" Record Changer. Protects up to 40 records against loss and breakage. Wired to hold tape player-recorder available soon. Walnut frame. Vinyl covered steel door. 15 $\frac{3}{4}$ " square, 4" deep. Model 2404 \$55.00

FOR THE FIRST TIME — A Stereo AM-FM Radio-High-Fidelity Music System combined with Intercom, — built-in — complete and ready to enjoy — not just in one room, but throughout the home, and in the Patio. Today's most wanted music — on Stereo records, in Stereo broadcasts, and on Stereo Tape. Now — all of these sensational Stereo sources — built-in.

**DUAL-CHANNEL AMPLIFIER
COMBINED WITH INTERCOM**

Two amplifiers in a single chassis, with common controls. Loudness, Balance, Treble and Bass Controls insure perfect Stereo and monaural reception. Also room-to-room Intercom. Hand-rubbed Walnut frame. Gold Anodized Control Panel. 15 $\frac{3}{4}$ " wide, 11" high, 4" deep. Model 2401 \$228.00

A NEW 4-WAY STEREO SYSTEM

1. Dual-Channel Stereo Amplifier plus a room-to-room intercom.
2. An AM-FM Radio Tuner to receive Stereo Radio programs.
3. Fold-in Wall Record Changer. Automatic shut-off and 4-speeds.
4. Wall Cabinet for Record Storage or Tape Deck

Built-In Coaxial Wall Speakers

The NuTone speakers are built into your walls for the finest tone. Better tone than cabinets which cannot match built-in wall enclosures for rigidity and size. Walnut frames. All-Saran, non-tarnishable grille cloth. 12 $\frac{3}{4}$ " square. Speaker with Controls: #2411 \$39.75 Speaker without Controls: #2412 \$22.00

not shown	
Door Speaker #2413	\$11.00
Inside Remote Control #2418	\$29.75
Outside Remote Control #2415	\$24.75
Patio Speaker without Controls #2414	\$17.25
50' Wire & Conductor #2421	\$ 5.95
60' Wire & Conductor #2422	\$ 1.80
250' Wire & Conductor #2424	\$17.50

"FOLD-AWAY" STEREO RECORD CHANGER

Plays all speeds of Stereo and conventional records. Intermixes 10" and 12" records of the same speed. Diamond stylus for Stereo and LPs; sapphire stylus for 78 RPMs. Last record can automatically shut off entire System. Input plug for auxiliary equipment. 15 $\frac{3}{4}$ " square, 4" deep. Model 2403 \$120.00

SAVES FLOOR SPACE—AVOIDS CABINET-CLUTTER. No costly console cabinets! One set of built-in matched components uses built-in remote wall-speakers, inside and outside the home. There is a system to suit every plan and budget.

PRECISION ENGINEERED — and decorator-styled — values found only in the finest electronic equipment.

NUTONE

Built-In Barbecue

Electric and Charcoal Models

Model 4000 Built-In ELECTRIC Barbecue

**No flavor like Barbecue . . .
No Barbecue like NuTone!**

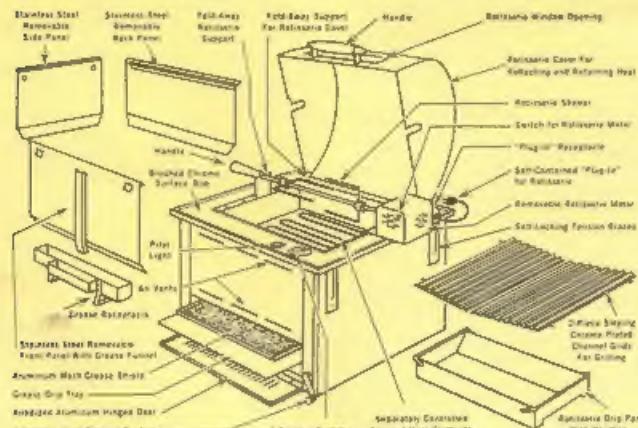

For Kitchen, Family Room or any Sheltered Area

"Cook-outs" . . . inside the home year 'round . . . rain or shine

- Channel-Grids drain grease into removable tray.
- All parts removable for easy cleaning.
- Hinged cover retains heat, saves electricity.
- Rotisserie plugs right into the unit. No cords.
- Aluminum mesh prevents scorch and flare-up.
- Dual Heat-Elements — "triple-position" switch.
- Anodized Aluminum front panel keeps "New" look.

IT "DROPS-IN" TO STANDARD CABINETS . . . Simply make a cut-out in any standard kitchen counter . . . the unit drops into place and locks in position with tension braces. Completely insulated.

Easiest to Install . . . DROPS IN to standard kitchen cabinets

Built-In Barbecue Grille

No muss . . . no fuss . . . everything is neat and tidy. Brushed chrome counter rim is flush. Two-piece patented channel grids . . . prevent dangerous "flare-ups" by diverting the melted grease away from the blazing heat. Flavor of meat is improved because you avoid the "sooty taste."

Plus Rotisserie

Easy and quick to assemble. The anodized cover keeps your room cooler by preventing excess heat from escaping. Most important . . . it retains and reflects the radiating heat to reduce cooking time . . . saves $\frac{1}{2}$ to $\frac{3}{4}$ on electricity costs of ordinary rotisseries.

U.S. and Foreign Patents Pending

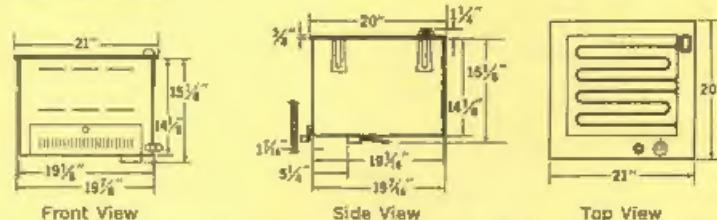

Model 4000 Built-In ELECTRIC Barbecue 3200 Watts, 220 Volt.

Drop-in unit for cabinet mounting. (Fits 27" and 30" sink or range cabinets.) Fully insulated. Built-In CHARCOAL Barbecue

Model 4010 List Price \$59.95

Has many of the same exclusive features offered in NuTone's electric model . . . **WITH THE EXCEPTION THAT CHARCOAL IS USED AS THE SOURCE OF HEAT.** Temperature is controlled by a heat control lever which raises and lowers the fire box.

Anodized Aluminum Front Panel with Brushed Chrome Top Plate. Includes Channel Grids, Grease Receptacle, warp-proof Fire Pan with fuel saving divider, Lift Lever for heat control, removable Stainless Aluminum panels . . . fold-away support for Rotisserie Attachments. 4010 not insulated)

When Model 4010 is used indoors, it must be vented according to your local and national building codes.

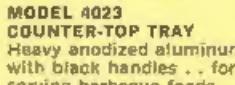

Model 4022 INSULATION BOX \$8.95

for use with model 4010 Charcoal Barbecue when installed in cabinets.

Model 4021 CHARCOAL FIRE PAN For Replacement

NuTone's Model 4021 warp-resistant fire box has "easy-to-carry" handles on each side which fold down and out of the way when it is inserted in the grill. List Price \$5.95

MODEL 4023 COUNTER-TOP TRAY
Heavy anodized aluminum with black handles . . . for serving barbecue foods. List Price \$7.95

4010 Rough-in Dimensions for Masonry Installation: 16 $\frac{1}{4}$ " wide x 18 $\frac{1}{4}$ " long x 12 $\frac{1}{2}$ " deep — Rough-in Dimensions using # 4022 Insulation Kit: 19 $\frac{1}{4}$ " wide x 19 $\frac{1}{4}$ " long x 12 $\frac{1}{4}$ " deep

NUTONE

Built-In Food Center

One Motor operates 6 Built-In Appliances

1 — Blender

Delicious frosty drinks, salads and soups. Six Speeds. Safety seated blades. Triangular shape for faster liquefying, shredding and blending.

2 — Shredder

NEW VEGETABLE SHREDDER and SLICER. For tasty salads, chips and soups rich in vitamins. 3 cutting plates...a thin slicer...a thick slicer and a shredder.

3 — Mixer

Motor powered bowl. 3½ quart size. One powerful beater mixes faster than multiple beaters. Bowl is easy to hold in one hand. All around pouring rim.

4 — Grinder

You've never tasted hamburger like this. Exclusive vertical design retains all nourishing natural meat juices. No mashing or splattering.

5 — Juicer

Enough fresh fruit juice for your entire family at one time. Holds 10 full glasses. Plastic strainer allows most nourishing pulp through — no seeds.

6 — Sharpener

Keep your knives sharp as new. Sharpens edge only without damaging blade temper. Fast and safe. Uses flexible discs...no hard grinding stone.

The only Food Preparation Center of its kind. Built into any kitchen counter top. Saves Work-Space and Saves Money

NO WASTED SPACE . . .

Look at the space you save with a NuTone BUILT-IN Food Preparation Center! The recessed motor is completely out of sight to give you much more kitchen work-space. NuTone's multi-matic power drive is ready for instant use with 6 food appliances!

NO TANGLED CORDS . . .

Why clutter your kitchen with a "jungle" of plug-in cords needed for many separate food appliances? Now your counters can be smooth and tidy with the NuTone Built-in Food Center. The stainless steel surface-plate is flush and has recessed controls.

NO HEAVY LIFTING . . .

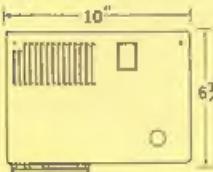

Storage space is no problem with NuTone's Built-in Food Center. No need to drag heavy appliances in and out of cabinets or crowd your shelves with bulky motors. NuTone's single motor "stores itself" . . . and all attachments are light in weight!

See Fan Section for Home Ventilating Institute Certified Ratings

Heat-A-Vent Model 9300

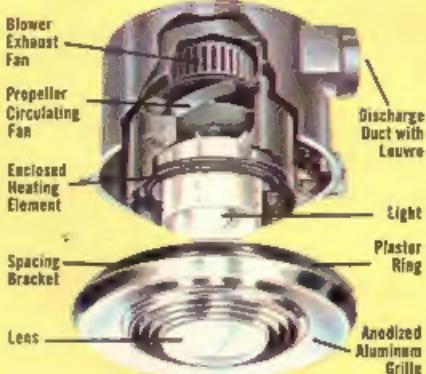

Electric Wall Heater plus Exhaust Fan

Electric Wall Heat PLUS Ventilation in one fixture. Saves installation cost . . . avoids double cutouts and double wiring. Blower has cushion-mounted motor and automatic built-in louver. Heater and fan operate at SAME TIME or separately. 2 armored heating elements — use both for 5460 BTU . . . or single element for 2730 BTU. Special receptacle permits optional plug-in of fan motor so that wall light switch can also control fan. Plug-in connections for fan and heating elements. Connects to standard house wire . . . 117 Volts or 234 Volts three-wire service, 60 cycle only.

Model 9310 with Automatic Thermostat Control

Same as Model 9300 (above) except that thermostat controls the operation of heating elements (5460 BTU). The thermostat (Double pole, Bimetal Snap Action type) has temperature range of 30° to 100° F.

Model	Finish	Ventilator H.V.I. Certified in square feet	Kitchen	Bath	Other	List Price
9300	Anodized	not used	55	75	36.85	
9310	Aluminum	not used	55	75	62.95	

Heat-A-Vent Lite® Models 9090-9110

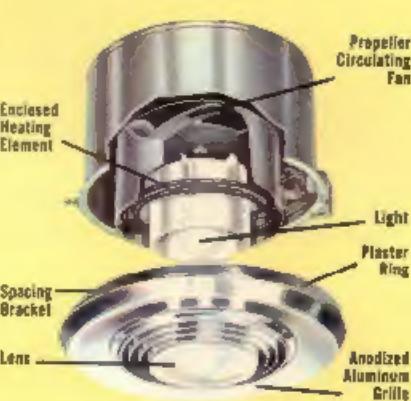

Ceiling Heater plus Exhaust Fan plus Lighting

The only Ceiling Fixture of its kind with TWO blades! Propeller for circulating warm air. Blower valve to exhaust odors and steam. Enclosed louver automatically closes when the circulating fan is heating or moving. Armored heating element for trouble-free operation.

Flexible leads from switch assembly eliminate heavy house wire connections directly to switches. No jumper wires required. Switches are prewired at factory and mounted as one unit. New switch-wiring assembly provides for manual switch control of heater or addition of an automatic wall thermostat control unit.

Housing — 13½" diameter — 7½" deep. 1½" flange to be flush with plaster. Adjustable Mounting Brackets. Plaster ring hides edges of rough plaster or sheet rock. Spacing brackets insure correct air intake. Thermal protected to prevent overheating.

Grille—16" diameter. Motor 60 cycle AC, 115-120 volts. Wall Switch included. Use 100 watt short bulb (not included).

Heat-A-Lite Model 9010

Circulating Heater plus Light

Recirculates warm air usually wasted near ceiling. Improved light pattern gives complete room illumination.

Grille—16" dia. Housing 13¾" dia. x 7½" deep with 1½" flange plus adjustable mounting brackets for 0° to ¾" plaster thickness. Extends 3¼" from ceiling.

Plaster ring hides edges of rough plaster or sheet rock. Spacing brackets on ceiling ring insure correct air intake. Thermal protected to prevent overheating.

1475 watts, 5040-5520 BTU, 100 watt bulb.

U.S. Pat Nos. 2,689,906; 2,697,163; 569,322; D-166,299

Radiant Heater Model 9280

Surface mounted

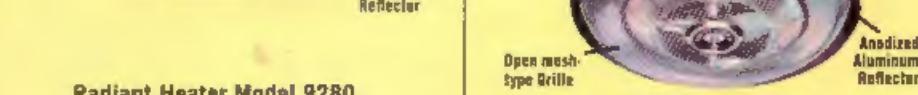

Healthful infra-red heat all through the bathroom. Hugs the ceiling. Extends only 8½" from ceiling. Mounts like a standard lighting fixture. Heats 2 ways . . . with DIRECT HEAT from the element . . . and with REFLECTED HEAT. Radiates heat ALL THE WAY DOWN to the floor . . . (not just limited to upper level).

ENCLOSED, Armored Heating Element. Anodized Aluminum Reflector . . . resists corrosion. Guaranteed not to rust or tarnish. No extra heat bulbs or elements needed. Reflector 13¾" diameter. Ceiling plate 7" diameter. 1000 watts, 3412 BTU. Guaranteed for one year.

Radiant Heater Model 9200 — Built-in

The perfect answer to fast, effective, safe bathroom heat. It's healthful infra-red heat spreads relaxing warmth throughout the bathroom. Specially designed are "bounces" heat in all directions — no nearby scorchers — no faraway shivers. Exclusive safety cooling system prevents fire hazard.

Housing — 13½" dia. and 7½" deep. Reflector with outside grille 16½" dia. 4 adjustable mounting brackets. 1000 watts, 3412 BTU. Guaranteed for one year. U. S. Patent No. 2,708,232 U. S. Pat. No. 2,708,232

Radiant Heater Model 9290

SURFACE MOUNTED

A new Radiant Ceiling Heater which supplies infra-red heat all the way to the floor — not just upper levels.

Exposed parts are Anodized Aluminum. Will not rust or tarnish. Armored type heating element glows red. Surface mounts to standard junction box. Quiet motor permanent type lubricant. Grille 15" dia. Extends 3½" from ceiling. Thermal protected 1250 watts, 4265 BTU. Heats up to 375 cu. ft. Guaranteed for 1 year. U. S. and Foreign Patents Pending C.S.A. Approved

Home Ventilating Institute — Certified Ratings

All Ventilating Range Hood-Fans which display the H.V.I. Label have been tested by the Texas Engineering Experiment Station at Texas A&M College in accordance with the Standard Test Code approved by H.V.I. Ventilating Range Hood-Fans which carry this

label have been determined by test to meet the requirements of the Minimum Property Standards of the F.H.A. and the minimum requirements recommended by the Home Ventilating Institute.

Static Pressure Point .10 inches W. G.

3400 Series Non-Ducted Hood-Fan

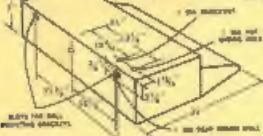

Gets rid of GREASE, SMOKE and ODORS, the 3 major ventilation problems.

No Ductwork Needed

Hood, Motor and 3 Filter Elements come in one compact unit. Installs in minutes. Aluminum Mesh, Activated Charcoal and a special Micro-Type material purify kitchen air. Gives complete protection needed for walls and furnishings.

1. Grease Filter: 261 sq. in. of Aluminum Mesh traps all grease before it can leave the cooking zone.
2. Smoke Filter: Exclusive Micro-Type layer to shield the charcoal filter and absorb sooty smoke from cooking.
3. Odor Filter: 2 lbs. of air purifying Activated Charcoal literally grabs odors before they can get away.
